KORONA POS

A QUICK INTRO TO
KORONA POS

We're excited to tell you more about what makes KORONA a great solution for your business. Your account manager will fill you in on more specifics, but use this guide to learn some of the basics.

Inventory Management:
Set custom stock notifications, automatic reorders, vendor relations, product assortment, and much more with powerful inventory assistance.

Cloud-Based System:
Your data is all stored in secure remote servers so you can access the back-end system from any location with your login credentials. Cloud software also updates in real-time and is reflected immediately at your terminals.

Product Reporting:
Stay in the know on your performance with hundreds of customizable KPI reports and metrics. Reports are generated in seconds, breaking down complicated data in digestible pieces.

Hardware Options:
KORONA offers a wide number of hardware options, including desktops, tablets, kiosks, modern payment machines, printers, and scanners.

Processing Flexibility:
We'll work with you to find the cheapest credit card processing solution on the market. We integrate with all major solutions, leaving you with more choice.

CRM and Loyalty:
The software comes with a point-based loyalty program, and we integrate with various third-party software for more in-depth CRM.

Employee Management:
Monitor all staff performance with individual reports, keep track of payroll and scheduling, calculate tips and commissions, integrate with Quickbooks Online, and set custom cashier permission levels.

eCommerce and Multi-Location:
Expand your business seamlessly with our eCommerce integration and multi-location scalability. Data imports are simple and sales can be broken down as a whole or by specific vertical/location.

Flat-Rate Pricing:
A KORONA subscription comes with zero hidden fees, surcharges, or penalties. There are no contracts required and no penalty for cancelling your subscription.

Included Customer Support:
Our support team is entirely in-house and available by phone, chat, or email. Our phone lines are open 24/7 for after-hours emergencies. Plus, they'll help you with training and installation.
